

MONIKA AKASH SHINDE

Senior Software Engineer | .NET Core | C# | ASP.NET MVC | Angular | SQL Server

Phone: +91 8788958177 | Email: ermlkorde@gmail.com | Location: Navi Mumbai, Maharashtra LinkedIn: <https://www.linkedin.com/in/monika-s-25354a117/> | Portfolio: <https://monika-shinde-tech.github.io/>

PROFESSIONAL SUMMARY

- **8+ years** of enterprise application development using C#, .NET Core, ASP.NET MVC, Angular, and MS SQL Server.
- Most recently at SurePrep (India) Pvt. Ltd., where I developed Webhook Agents, REST APIs, and TransitHub solutions in the Tax domain.
- Strong MVC expertise: implemented Model-View-Controller architecture across multiple enterprise applications with Biometric SDK integration.
- Led Angular migration (Angular 1 to Angular 13) with Karma and Jasmine unit testing; developed Windows Services and FTP automation.
- AI-enhanced development: leverages GitHub Copilot and Claude AI for accelerated development, automated unit test generation, and intelligent code generation, improving velocity by 30%.
- Effective communicator — proven delivery both independently and in cross-functional agile teams.

TECHNICAL SKILLS

Core Languages & Frameworks: C#, .NET Core, ASP.NET MVC, LINQ, VB.NET, Entity Framework

Frontend: Angular 13, Bootstrap, HTML5, CSS3

API & Integration: REST API, Webhook Agent, TransitHub, Biometric SDK

Database: MS SQL Server, Stored Procedures, Data Migration

Cloud & DevOps: Azure (Azure App Service, Azure SQL, Azure DevOps — fundamentals)

Architecture & Patterns: MVC, SOLID Principles, Clean Architecture, Separation of Concerns

Testing & Tools: Karma, Jasmine, GitHub, Visual Studio, Windows Services, Azure DevOps (ADO)

Methodology: Agile, Scrum, Sprint Planning, Code Review

AI Tools: GitHub Copilot, Claude AI, AI-Assisted Development

Domains: Tax Processing, Inventory Management, Access Control & Security

PROFESSIONAL EXPERIENCE

Software Engineer

SurePrep (India) Private Limited | Mumbai, India

December 2022 – June 2026 (3 years 6 months)

Stack: C#, .NET Core, ASP.NET MVC, REST API, Webhook Agent, TransitHub, GitHub | Team: 5–8 members

- **Webhook Agent:** Built and maintained real-time event-driven Webhook Agent, reducing manual integration effort and enabling instant notifications across tax processing systems.
- **REST API Development:** Designed and implemented 10+ REST APIs for data exchange across tax platforms and third-party services, improving data flow reliability.
- **ASP.NET MVC Development:** Built scalable web applications using clean MVC architecture patterns with proper separation of concerns.
- **AI-Enhanced Development:** Utilized GitHub Copilot and Claude AI for accelerated development and automated unit test generation, improving development velocity by 30%.
- **Code Quality:** Participated in GitHub-based code reviews within a team of 5–8, maintaining consistent coding standards and reducing post-release defects.

- **Agile / Scrum:** Worked within Agile/Scrum sprints for the first 2 years at SurePrep, participating in sprint planning, daily stand-ups, and retrospectives; transitioned to Azure DevOps (ADO) for work item tracking, sprint boards, and release pipeline management.

System Engineer

Tata Consultancy Services Ltd. (TCS) | Mumbai, India

August 2021 – December 2022 (1 year 4 months)

Stack: C#, Angular 12/13, SQL Server, Windows Services, VB, GitHub, Karma & Jasmine | Team: 6 members

- **Angular Migration:** Led migration of 20+ components from Angular 1 to Angular 13; achieved approximately 85% unit test coverage using Karma & Jasmine.
- **MVC Implementation:** Refactored legacy code to follow MVC architectural patterns, improving code maintainability and testability.
- **DB Enhancement:** Extended stored procedures across multiple servers; automated CSV delivery via Windows Service, eliminating manual FTP uploads.
- **Auth & Reporting:** Implemented new authentication layer and added reporting columns, improving audit traceability.

Software Developer

BOP Consultants Pvt. Ltd. | Mumbai, India

December 2020 – August 2021 (9 months)

Stack: Classic ASP, C#, Bootstrap, CSS, SQL Server, Windows Services, VB6 | Team: 4–5 members

- **UI Redesign:** Redesigned 20+ web pages using CSS and Bootstrap, improving UI consistency across the platform.
- **MVC Migration:** Converted Classic ASP pages to ASP.NET MVC architecture, improving performance and maintainability.
- **FTP Automation:** Replaced nightly batch job with real-time SQL triggers, ensuring instant Excel report delivery.

Career Break

March 2020 – December 2020 (9 months)

- Career break due to the COVID-19 pandemic; utilized the period for personal development and upskilling in ASP.NET MVC and Angular.

Software Developer

EINS Technologies India Pvt. Ltd. | Mumbai, India

March 2017 – March 2020 (3 years)

Stack: C#, ASP.NET MVC, WinForms, SQL Server, Windows Services, Biometric SDK | Team: 3–5 members

- Delivered 6 end-to-end products in the security and access control domain, integrating Biometric SDKs (fingerprint/IRIS) with IP Controllers.
- **MVC Web Applications:** Built comprehensive web-based management interfaces using ASP.NET MVC for biometric device configuration.
- **Products delivered:** Time & Attendance, Access Control, CCTV Surveillance, Elevator Management, Biometric Template Management, Housing Society Management.

KEY PROJECTS

Tax Processing Integration Platform

SurePrep (India) Pvt. Ltd. | 2022 – Present | Stack: C#, .NET Core, ASP.NET MVC, REST API, Webhook Agent, TransitHub

- End-to-end design of Webhook Agent and REST APIs enabling real-time data exchange between tax systems and third-party platforms, with clean MVC architecture for web interfaces.

Inventory Management System – Angular Migration

Tata Consultancy Services Ltd. | 2021 – 2022 | Stack: Angular 13, C#, ASP.NET MVC, SQL Server, Karma & Jasmine

- Migrated 20+ front-end components from Angular 1 to Angular 13 with full unit test coverage. Restructured backend to follow MVC patterns for better API organization.

Biometric Access Control Suite

EINS Technologies India Pvt. Ltd. | 2017 – 2020 | Stack: C#, ASP.NET MVC, WinForms, Biometric SDK, Windows Services

- Delivered 6 integrated security products including fingerprint/IRIS-based access control and CCTV surveillance. Built comprehensive MVC-based admin panels.

EDUCATION

B.E. (Computer Engineering / IT)

JSPM's Bhivrabai Sawant Institute of Technology & Research, Pune University | 2016 | 60.13%

Diploma – Computer Technology

Bharati Vidyapeeth Institute of Technology, Mumbai University | 2013 | 70.26%
